SHOP ATRNO API DOCUMENTATION

Api key = ncoiweuf0ur32ond20i32apc2edif032hcldwkncpdwc

1. Register User

https://test.aeternus.foundation/api/v1/user/register

Headers (Required)

Key	Value
x-api-key	[apikey]
referer	metafortunaverse.com

Body (Required)

Key	Value	Parameter
username	[username]	String(unique)
firstName	[firstname]	String(required)
lastName	[lastname]	String
email	[email]	String(unique)
phone	[phone]	String(required)
password	[password]	String(required)

Response
```
{
    "statusCode": 200,
    "data": "User Created",
    "message": "User registered Successfully",
    "success": true
}
```

2. Create Vouchers

https://test.aeternus.foundation/api/v1/voucher/create-vouchers

Headers (Required)

Key	Value
x-api-key	[apikey]

method	post

Body (Required)

Key	Value	Parameter
email	[email]	String(required)
numOfVouchers	[number of vouchers]	Number (required)

Response

```
{
    "statusCode": 200,
    "data": [
        {
            "code": "PROMO13351152"
        },
        {
            "code": "PROMO6062659"
        },
        {
            "code": "PROMO1080578"
        },
        {
            "code": "PROMO987312"
        },
        {
            "code": "PROMO4136328"
        }
    ],
    "message": "5 vouchers added successfully",
    "success": true
}
```

3. Add amount to wallet

https://test.aeternus.foundation/api/v1/wallet/add-amount

Headers (Required)

Key	Value
x-api-key	[apikey]
Method	post

Body (Required)

Key	Value	Parameter
email	[email]	String(required)
amount	[amount]	Number (required)

Response
```
{
    "success": true,
    "data": {
        "user": "664aeba6984626985389f7e9",
        "amount": 1000,
        "_id": "6662cadacab56f408dfbdc0c",
        "__v": 0
    },
    "message": "Wallet successfully created/updated"
}
```

4. Bill details for specific User

https://test.aeternus.foundation/api/v1/ order/mfv-order?email=

Headers (Required)

Key	Value
x-api-key	[apikey]
Method	get

Response
```
{
    "success": true,
    "data": [
        {
            "orderId": "6662b403f7bbec663451a786",
            "totalPayAmount": 5198,
            "totalBV": 779.7,
            "billNo": "6662b403f7bbec663451a785",
            "billDate": "2024-06-07T07:17:23.404Z",
            "voucherCode": "SAE61224QMH"
```

```
        },
        {
            "orderId": "6662b4ec4918bfbc1af7289b",
            "totalPayAmount": 1199,
            "totalBV": 179.85,
            "billNo": "6662b4ec4918bfbc1af7289a",
            "billDate": "2024-06-07T07:21:16.765Z",
            "voucherCode": "SA2353D3Y6D"
        }
      ],
      "message": "Bill Details successfully fetched"
    }
```

5. Bill details with specific dates

Headers (Required)

Key	Value
x-api-key	[apikey]
Method	get

Response
```
    {
       "success": true,
       "data": [
         {
            "orderId": "6662b403f7bbec663451a786",
            "totalPayAmount": 5198,
            "totalBV": 779.7,
